

CANCELLATION NOTICE:

ASCLS-MT 2020 spring educational conference will be canceled for this year April 9-11, 2020 in Missoula, MT. In the interests of supporting the national efforts to slow the transmission of COVID-19 we have decided to cancel our annual state educational gathering for the year of 2020 with the intent to offer our meeting in Missoula in 2021 instead.

This decision was not made lightly and while we as healthcare workers tend to show up no matter the risk, we know it is also our duty to support the pandemic response and social distancing efforts.

Thank you to everyone for your patience and understanding.

A big thank you from ASCLS-MT to all the laboratory staff working diligently behind the scenes during this healthcare crisis.

We will be working on distance learning options to fill the gap our conference has left in your CE requirements. So please stay tuned!

Please direct any questions to the contact section of the website.
